

Adding your "YouTube" Videos to your Facebook Account

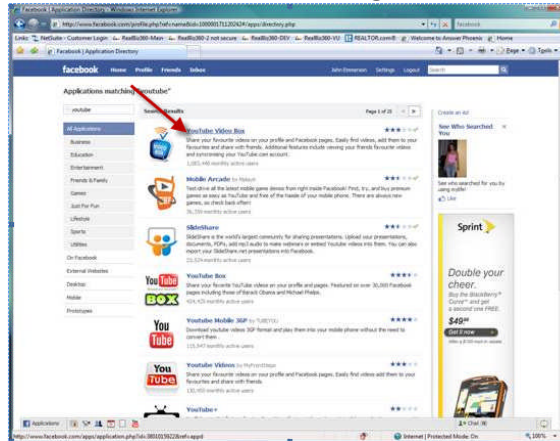

In order to "Add the YouTube Tab" you will need to complete the following steps below:

- You will find in the bottom left hand corner the "Applications" button > Select
- Choose "Browse more applications"
- In the search box search for "YouTube"

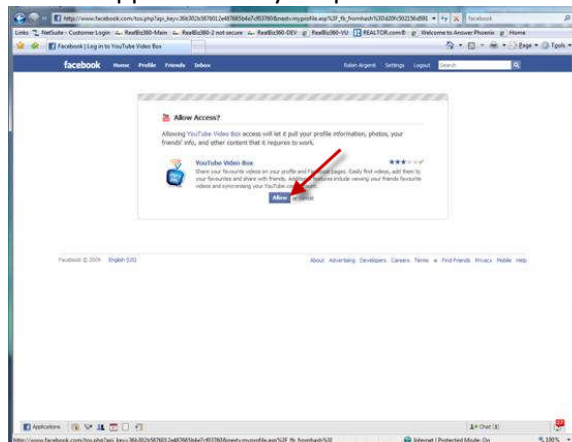

Your results should look like below:

- Choose "YouTube Video Box" (top one in the above screenshot)
- Push the "Go to Application" button and select the "Manage Profile" tab.

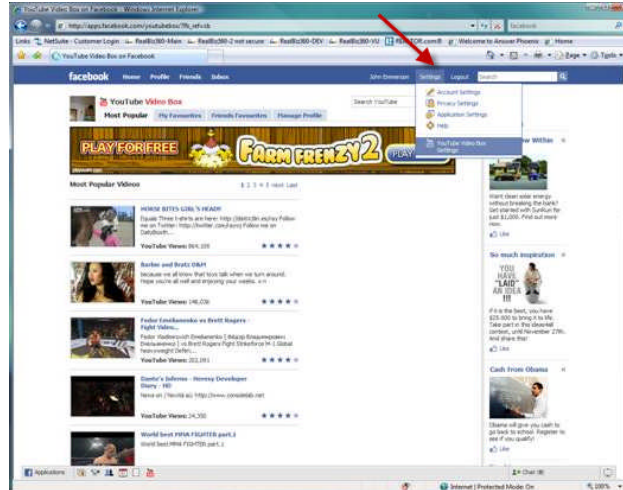

- Push the "Allow" button to add the application to your profile

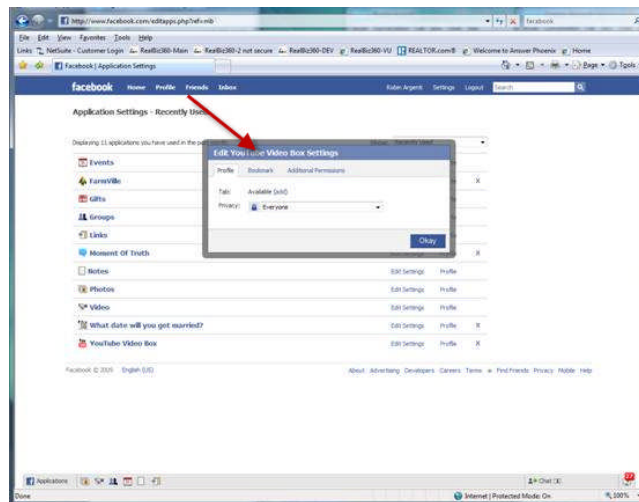

Continued...

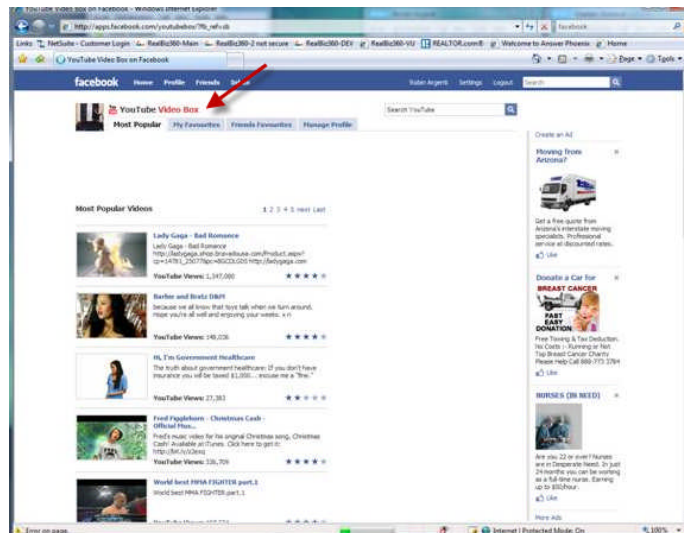

- Now you should be able to hover over the “Settings” button next to “logout” at the top of the page.
- Find “YouTube video box settings” (if you don’t see it chose “Application Settings” instead, then select “Edit Settings” next to YouTube video box)

- You should see the Edit dialogue box appear.
- Click the text that says “Add” and it should change to “Remove”
- Then choose “Okay”

- **Congratulations!** You now have the “YouTube” video box on your profile.
- To add favorites to your tab simply choose **Settings>Application Settings>YouTube Video Box>** (This should redirect you here http://apps.facebook.com/youtubebox/?fb_ref=sb)

Continued...

- Using the “**Search YouTube**” box you can find your video
- Select it and add it as a favorite. Once selected the videos will appear on your profile **YouTube** page like below:
